

Prescient Life Stylo Beta Growth Portfolio

Investment Process

The objective of this portfolio is to generate high long-term real returns; it is a **moderate/high-risk portfolio** (target 75% allocated to equities). It makes use of a strategic asset allocation methodology and an indexed investment style. Typically, exchange traded funds (ETFs) or other passive investing strategies are used to get exposure to each asset class building block.

The portfolio is Regulation 28 compliant and can be used within a pension funds structure.
